

MAKING BELIEVERS

“**W**hen we went to Hi-Definition video for our worship services we also installed a large LED 16.4' x 60' screen. So you can imagine the quality of the cameras is greatly shown on a screen that size. We have been awed by what we have experienced.

The joke around here is that our musicians and speakers better check their makeup and hair before they go on stage. Between the cameras and the large screen they will be noticed!”

Dwayne Dreyer
